DETAILED ACTION***Election/Restrictions***

1. Currently amended claims 12,13, and 17, directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: the new limitations in the claims are directed toward a non-elected species and include structural limitations not included in the elected species. Applicant argues that any of the disclosed devices can include an electrical component. The electrosurgical forceps require structure that is not included in the elected species in Figure 7A, such as the insulator component (312) included in the embodiment of Figure 5. The elected embodiment in Figure 7A does not include an insulator, nor is capable of receiving an insulator, because the proximal ends of the blades are directly connected to one another. The specification describes the device in Figure 5 as a separate embodiment from the device in Figure 7A. The requirement is still deemed proper and is therefore made FINAL.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 12,13, and 17 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Response to Amendment

2. The reply filed on 10/27/06 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): currently amended claims are withdrawn due to the election by original presentation discussed above. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given

Art Unit: 3731

ONE (1) MONTH or THIRTY (30) DAYS from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
